PROFESSIONAL EXPERIENCE

Mobile app developer / District Rollout Manager

National Informatics Centre (Pay-roll Intileo Technologies) 2021 - Present

- Developed and maintained mobile applications using the Flutter framework.
- Collaborated with UX/UI designers to implement visually appealing and user-friendly interfaces.
- Integrated RESTful APIs and Third-party libraries for enhanced functionality
- Training and implementation of iRAD software as District Rollout Manager of Kasaragod. (DRM)

PROJECTS

1. e-Employment Exchange Kerala:

- Developed e-Employment Exchange Kerala app.
- This app avails services on registration renewal, request for transfer and informatic services such as details about different job fairs across Kerala, notices, news and helpline numbers.

2. Revenue recovery mobile:

- App for the Revenue department of Kerala to make the village officer's or village field officer's revenue recovery process easier.

3. Vibrant:

Personal Project | Flutter, Provider, Firebase

Developed a social media app that allows users to post, view and interact with posts and reels. The app includes features as commenting, liking and real-time content updates.

- Utilized Flutter Provider for state management, ensuring efficient and reactive UI updates.
- Integrated Firebase for user authentication, real-time database and media storage.

4. Magazine App:

Personal Project | Flutter, BLoC Architecture, Supabase

Developed a mobile application that allows users to upload, view and interact with digital magazines. The app features user authentication, magazine upload, likes, comments and storage management.

- Integrated BLoC (Business Logic Component) architecture for state management, ensuring separation of concerns and maintainable code.
- Integrated Supabase as the backend for user authentication, storage (PDF and images), and database management.
- Followed Clean Architecture principles with feature-first organisation.

5. Findora :

Personal Project | Flutter, Provider, Node.js, MongoDB

Developed an e-commerce app allowing users to browse products, add items to their cart, track orders in real-time, and manage purchases. Features include product search.

- Utilized Flutter Provider for managing the state of the app, ensuring smooth user interaction and data flow.
- Integrated Node.js and MongoDB for backend services, managing user data, orders and status.

Roles and Responsibility as District Rollout Manager (DRM):

- Co-ordination with NICS/MoRTH/IITM officials to determine training needs for the projects.
- Creating training materials and training plans for imparting training to the user department in the State/Districts.
- Overseeing and directing seminars, workshops and individual training sessions and lectures.
- Scheduling and conducting training sessions on the iRAD application for stakeholder department users.
- Analysing reports and reporting the findings to the State Rollout Manager. (SRM)
